How to use it:

1. Tighten the tape around the wider part of your chest and the wider part of your hips.
2. If your chest measurement falls between 2 sizes, choose according to your preferences: a larger size for a looser fit, or a smaller size for a tighter fit. We advise you for this kind of outfit to select the smaller size.
3. If your height measurement is 1 size bigger or smaller than the chest size, we suggest you select the size based on the chest measurement only.
